After submitting this completed application with the requested documentation to The Learning Academy, the student's information will be processed and he or she will be put on the enrollment "waiting list" until an appropriate slot becomes available. Submission of a completed application does not hold or guarantee admission to the school.

In accordance to Florida statutes, all openings for students within The Learning Academy are filled via a lottery - that is, a random drawing of students on the waiting list who are appropriate to fill a specific opening. The Learning Academy typically conducts lotteries in January & June to fill anticipated student openings – other lotteries may be conducted if openings become available mid-year.

Parents on the waiting list will be notified via email the results of lotteries, as to whether a student has been selected via the lottery or not.

If a student is not selected within a given lottery, they will remain on the waiting list for all subsequent lotteries unless otherwise indicated by a parent in writing to have him or her removed from the waiting list.
