

# North Jupiter Flatwoods Natural Area Map

The North Jupiter Flatwoods is a 160 acre natural area.

The map above shows the ½ mile of paved nature trails. It takes about 10 – 15 minutes to walk the trail.

On this trail you will find Sensory Stations where you can stop and feel the different textures you may find in the natural area.

There is a shaded area with a swing.

There is a bench at the half way point of the looped trail where you can take a break.
